Jonathan's Fireworks Ltd – Cat 4 Trade List 2018

Page 1 of 29

Welcome to our 2018 trade list.

We have once again developed our range of both cat 3 and cat 4 this year and we are excited with many new additions to the range – including a whole new range of cakes with multi-firing patterns! We have also introduced a new concept - 'Display in a Box' – This is 4 sibs in a box when used together make the basis of a small display with a duration of 5 minutes and 30 seconds. You can then choose to add items to it if you wish. Also new for 2018 is our finale fan firing 50mm Brocade Shell cake – also available as a slice which makes a perfect addition to the 'Display in a Box'! We have numerous new cakes of multi-calibre and sizes as well, which are great additions to the range. We have also added some new shell mixes, so we now have three different mixes in both 3" and 4". We have also introduced some new 5" and 6" shells. All the new items for this year are clearly marked  We always listen and act on our customers' requests, so if you'd like to see something in our range – tell us! We are happy to deliver free where ever possible, if free delivery is not possible due to order size, we will only charge fuel at cost, so please enquire on a price. Collections are always welcome, day or night weekends or week days – we want to serve you, our customers well, so please feel free to ask and we will do our best to assist. Prices – We have tried to keep any price increases to a minimum and we have absorbed most of the price increases China have made again this year, to help keep the cost down for you, the dollar rate is extremely low since Brexit, and as we buy in dollars from China, we have had to make some increases, but as always these have been kept to an absolute minimum as we always try our hardest to be competitive.

There is **NO MINIMUM ORDER** – order size is not important to us, so whether large or small, any order is welcome.

Please note all prices in this trade list EXCLUDE VAT and this will be added to your invoice at the current rate of 20%.

Remember, we are a friendly, approachable, caring firework company – so if we can be of any help at all, just pick the telephone up and talk to us. We love to hear your comments.

*If you see this picture next to any of our products in this trade list – it means the item is **LOW NOISE** and ideal for quiet displays.*

Terms and Conditions

All items in this trade list are Category 4 and before we supply we must see copies of your storage license and see that insurance cover is in place. We also need to see a copy of your training certificates. We cannot and will not supply until we have sight of the correct documentation. We will also need to see evidence that you are a 'fireworks company' in the form of a letterhead or other promotional material.

Unless credit terms are agreed, payment is due with order. We accept all methods of payment, cheques, BACS, credit/debit cards and cash.

To obtain category 4 product from us you must supply:

- 1) Proof of your Public Liability Insurance
- 2) Evidence of your storage
- 3) Evidence of your training
- 4) Proof of trading company eg letter head, company registration details

Discounts

Discounts are available for larger spends – please talk to us about your requirements. We understand that price is very important especially in the current climate and we endeavour to offer high quality products at very competitive prices. **Jonathan's Fireworks are high quality products, however if you feel that you could be offered a better deal elsewhere of products with same quality, please let us know and we will try our very best to match any offer.**

All goods are supplied as Category 4 – this means they are your responsibility to use safely and appropriately. Jonathan's Fireworks Limited accepts no liability for any outcome related to the use of Jonathan's Fireworks product. It is entirely the buyer's responsibility to allow for adequate safety distances and we accept no liability for any adverse effects resulting from the use of our products.

All shortages must be reported to Jonathan's Fireworks Limited within 3 days of delivery or collection.

All descriptions, timings and sizes are approximate and given as a guideline – we try to be as accurate as possible.

All goods remain the property of Jonathan's Fireworks Limited until the invoice is settled in full – we reserve the right to recover the goods if full payment is not received in the stated time scales.

Jonathan's Fireworks Cat 4 Trade List 2016

Shells

Our shells are excellent quality, performance and price. Available in mixed cartons where shown and come complete with waterproof pre-stripped leaders and are also individually wrapped in plastic bags. The quality of our shells is really exceptional – the burst sizes are impressive as well as the burn time on the stars being equally as impressive. We visited many factories and watched numerous samples before choosing our range this year, so the quality of this should be clear when you see the shells.

Barrage Packs

Our ever so popular barrage packs which are perfect for all types of displays provide excellent value and superb performance. Each pack comes complete with 18 barrages and 9 different effects to allow you to fire in pairs. All contain three different sized cakes allowing you to form the basis of a show and then you simply add shells, candles and larger cakes as required.

These come complete with quick match leader and delay fuse – ready for hand firing or insertion of an igniter. *They now come with in and out fuses along with E fuse connectors for easy inserting of an igniter!*

JF4100 – Cat 4 Barrage Pack A – NOISE – 2/9 £93.00 per pack (each barrage pack contains the following:)

2 x Blue tail to blue pearl and brocade crown
2 x Silver strobe mine to purple dahlia and green strobe

25mm 16 Shot Fan Cakes – 20 seconds each

2 x Blue to golden willow cascade

JF 4400 – CAT 4 BARRAGE PACK C – 3/2 – NEW CONCEPT! - £93.00

We have taken the effects from our Cat 4 Barrage Pack A and made it into 6 cakes! That's right – same effects, same duration, but easier setup and less igniters! So for example we have a 27 shot 30mm cake which contains 9 shots fish, 9 shots time rain and 9 shots blue and yellow - the duration of the cake is 1 minute and will fire in order of 9 shots fish, followed by 9 shots time rain, followed by 9 shots blue and yellow.

For the 16 shot cakes, you get a 48 shot cake containing the three different types and the last 4 shots of each effect type will fire together, just as normal, and then the next effect will begin! You get two of each type as normal so you can fire over two firing positions. Everything is the same, except instead of having to setup 18 cakes - you can just setup 6!

Each pack contains –

2 x 27 Shot 30mm Fish, Blue and Yellow and Time Rain
